Portfolio: Portfolio — Engineering Playbook — Change Blueprint

Education

BTech, CSE	2023 - 2027
CGPA: 7.62/10.00	
12th (Science) / Higher Secondary	Percentage : 85.4%
10th / Secondary	Percentage : 94.6%

Skills

Programming Languages & Web: Python, Java, SQL, HTML, CSS, JavaScript
Frameworks & Libraries: Pandas, NumPy, Matplotlib, React, Flask
Databases & Tools: MySQL, Figma, Git, IntelliJ, Wireshark, FTK Imager
Concepts: DBMS, OS, REST APIs, Object Oriented Programming, Computer Networks, Cloud Computing, Data Structures and Algorithms

Projects

DocSearch (Offline Doc Retrieval System) Feb 2026 – May 2026 — Demo — Playbook
Tech: Python, TF-IDF, FAISS, Sentence Transformers, OCR, PyTorch

- Developed offline multilingual doc search system supporting PDF, docx, Excel, text and images.
- Evaluated keyword, semantic and hybrid retrieval approaches using Precision, Recall, MAP and MRR to compare search effectiveness and identify the strongest retrieval strategy.

PortfolioWeb Jul 2025 – Oct 2025 — Demo — Playbook
Tech: Python, HTML, CSS, JavaScript

- A resume-driven job recommendation platform, extracts user's skills and maps against relevant jobs.
- Implemented Python-based eligibility scoring and recommendation logic for evaluation.

NyxAI (AI Assistant) Jan 2026 – Aug 2026 — Demo — Playbook
Tech: Python, Flask, Gemini API, HTML, CSS, JavaScript, JSON

- Engineered an AI assistant with persistent conversational memory and intent-based responses.
- Built lightweight AI chat interface (Python, Flask and Gemini API) with secure API-key management

Internship

Enercore New Energy Private Limited (Web Development Intern) June 2025 - Jul 2025

- Collaborated on the development of a multi-page company website and independently delivered the Projects page using HTML, CSS and JavaScript with responsive testing across devices.
- Worked with team members to understand requirements, organize tasks and deliver assigned work within defined timelines.

Achievements & Responsibilities

- Got selected by HCL Tech for their internship after 12th grade.
- Cybersecurity Analyst Job Simulation Certificate by Tata.
- Palo Alto Networks Cybersecurity Foundation certificate.
- Certification: CyberSecurity 101 (Pregrad) / Generative AI Course With Langchain and Huggingface (Udemy) / AI and Data Analytics Workshop / Adobe University Hackathon certificate
- Senior Campus Health Buddy and Team Lead / NSS, Savera volunteer / Hackathon Organizing Team/ Annual Fest PR team.
- Campus Ambassador for TVS Credit Services Ltd., represented TVS Credit on campus.
